

MyTeacherCenter.com

Getting Started

1. Once you have registered, click on **Login**
2. The page that you see in front of you is the **Control Panel**.
3. Click on **Add A Class** to get started. You can have more than one class (middle/high).

4. Here you will put in your classroom information.
5. Everything that is highlighted in red must be filled out.
6. Put in your class name. This can be any name for your class webpage. Ex./ Kirkland's Krewe
7. Select your school name.
8. **Class Location** and **Class Time** are both optional features.
9. Select the template that you want to use. This is basically a background for your webpage.
10. Click on **Submit**.
11. This will bring you back to your Control Panel. Notice that your Control Panel has been updated.
12. Notice that you can also update your teacher profile on your Control Panel.

**** Notice your Class Code. This is the code that you will give out your students to access your webpage.

Remember, you can do this process all over again in order to do more than one class.
